Initial Meeting of the Intelligence
Definitions Working Group

20 September 1977

1. The Chairman opened the meeting with a brief description of the Group's charter, as follows:

Develop an appropriate list of intelligence terms with definitions for use within the Intelligence Community. The Group will recommend a list of definitions to the NFIB, together with unresolved differences. This report to the NFIB will include a recommended form of promulgation and use of the definitions and list those intelligence related documents which may need modification once a list of definitions is agreed upon.

STAT 2. A brief discussion then ensued concerning the necessity for common definitions which arose in connection with a study undertaken by the IC Staff of national-tactical intelligence interface problems. [redacted] displayed a number of definitional frameworks which could be used by the Group and discussed their advantages and disadvantages.

STAT

STAT 3. [redacted] HRC/IC, offered the Group his observations concerning the development of a glossary in conjunction with the formulation of the National Foreign Intelligence Plan for Human Resources and emphasized the need for the Group to establish ground rules to minimize differences.

4. The Group then reviewed a package of materials containing the original strawman list of intelligence definitions prepared by the IC Staff for NFIB coordination. This discussion led to tentative decisions concerning the definitions of "acoustical" and "basic" intelligence. The DIA member stated that JCS Publication No. 1 had been revised and provided extracts to the Working Group.

STAT 5. [redacted] concluded the meeting by asking each representative to provide a recommended list of terms for inclusion in the definitions document to OPP/IC by 23 September 1977. OPP will distribute a consolidated list during the week of 26 September.

6. NSA will make a 15-minute presentation at the next meeting to the Working Group on a current project they are undertaking.

7. The next meeting of the Working Group will be at 0930, Tuesday, 4 October at CHB, Room 5S09.
